About

I'm a product designer who loves to solve design problems and help people by bringing my years of experience to the table. I focus on user experience as well as creative UI that are user-friendly, business savvy, and of uncompromising quality. I have got a solid experience in Web, Mobile, Dashboard, Web app, and Admin Panel responsive UI design.

Work Proccese

1-Receive & Analyze your Requirement
2-Understanding business goal and targeted audience.
3-Sketch
4-Wireframe
5-Create UI
6-Prototype
7-Testing
8-Fixing problems
9-Delivery

Experience

I have 2 years of experience in UI UX. I have helped 200+ clients across different platforms like Dribbble and UpWork, and now I am also helping people with their Designs on Fiverr.
